

School Newsletter

Tap or click to add a subtitle

Main Heading

To get started, just tap or click this placeholder text and begin typing. You can view and edit this newsletter on your Mac, iPad, iPhone, or on [iCloud.com](https://www.icloud.com).

Use paragraph styles to give your newsletter a consistent look. For example, this paragraph uses Body style. You can change it in the Text tab of the Format controls.

1

KEY TOPIC

Describe your first topic in a few words

2

KEY TOPIC

Describe your second topic in a few words

3

KEY TOPIC

Describe your third topic in a few words

Heading 1

Drag your own photos onto any image placeholders.

Heading 2

You can crop or resize your images after adding them.

Heading 3

Style your images with borders or shadows if you like.

Heading

This newsletter template uses linked text boxes so the text you type can flow from one text box to the next.

You can identify which text boxes are linked by the shared colour of the circle at the top of each box. Numbers in the circles indicate the order of the text boxes. You can add additional text boxes, reorder how text flows, remove a box and more.

You can use Pages for both word processing and page layout. This Newsletter template is set up for page layout, so you can manually rearrange pages and freely position text boxes, images and other objects on the page.

In word processing documents, your text flows from one page to the next as you type, with new pages created automatically when you reach the end of a page. To create a word processing document, choose a word processing template in the template chooser.

“This is an example of a pull quote (a key phrase from your newsletter). Tap or click this text to add your own.”

You can also change this document to word processing on your Mac, iPad or iPhone by turning on Document Body in the Document controls.

TAP OR CLICK TO ADD A HEADING

To add more photos, image galleries, audio clips, videos, charts or any of more than 700 customisable shapes, tap or click one of the insert buttons in the toolbar or drag and drop the objects onto the page.

You can layer objects, resize them and place them anywhere on the page. To change how an object moves with text, select the object and then tap or click the Arrange tab in the Format controls.
